

METHODS OF BEHAVIOR CORRECTION IN THE PEDAGOGICAL PROCESS .

Abdurakhimov Shogosim Abdurakhmonovich

Teacher of QDPI.

Abstract: In this article, thoughts on methods of pedagogical stimulation and behavior correction, **giving recommendations on giving confidence, cheering up and supporting the student based on a positive assessment of his behavior and activities raised**

Key word: Education, behavior, organization of activities, reprimand, story, shame, warning, praise.

Teacher children with affairs since , therefore , their activities organize enough since , own instructions with of students some actions encourages . Job in the process to them certain considerations means , rebuke gives or encourages , the end makes His some commands short and in the mud are imperceptible forced to do role others play much wide explanation guidelines to the shape have will be One types students only to work injury to do necessity due to , others of children some skill and qualifications to master correction input the need with to the body came one types of students unnecessary and wrong actions if he stops , others successful actions strengthens and supports . Teacher by given all instructions and explanations , comments and reprimands pedagogical effect of showing mother that's it the most important methods has been demand of doing different to the forms it is said . That's why exaggeration for too from doing without fear to say maybe the pedagogue without demand of students study and social useful activities organize to reach imagination reached it won't be .

Methods of encouraging behavior and activity are methods of expressing confidence, cheering up and supporting the pupil based on a positive assessment of his behavior and activity . Teacher each one student in person happened giving positive changes understanding take necessary

Behavior and activity encourage methods during competition , encouragement , punishment such as methods manifestation will be

Competition method – (from Arabic dispute , competition) method - in individuals spiritual and moral (shu including volitional) , physical , aesthetic adjectives formation , his worldview enrichment in order to organize to be , who self or better to the result reach get character competition

Education in the process of encouragement the following of types used :

- 1) of the student undertake responsible task load ;
- 2) praise (parents , students team in front of);
- 3) souvenir a gift give (art books , education weapons etc.);
- 4) praise tab with reward
- 5) special scholarships appointment ;
- 6) support ;
- 7) a photo respect board to put
- 8) team on behalf of gratitude to notify
- 9) in line the first in place to stand provide ;
- 10) in competitions flag bearer to be chance create ;
- 11) name school mural newspaper or radio through note to achieve

Education in the process encourage methods efficient apply get for of encouragement there is pedagogical requirements according to to be consecutively not to be ; the student or his behavior too much by increasing not praise ; them another to the students comparing do not show ; the student non-discrimination ; demand do not relax to the likes attention focus it is necessary

Education in the process to punish method in application the following punishment measures applies to :

- 1) rebuke to give
- 2) warning ;
- 3) to embarrass ;
- 4) you are good to give

Reprimand to give the most important punishment remedy is a teacher to the student face to face standing up rebuke gives and this to the diary writing to put can

Warning - happened to be done possible has been certain of behavior prevention get in order to applied educational method .

Shame is the student's known behavior the team or his upbringing for in charge has been subjects (parents , guardians , public representatives and others) in front of price to give method . Children in education these feelings caution with grow up should , but hate embarrassing , blushing it's not good

You're welcome to give of the student known behavior strictly measures based on assessment being , he is reprimanded and warning expected the result did not give cases is used .

Punishment thorough thinking application must , on the contrary , angry on to punish possible it's not . Penalties alone in character , that is , only one method apply based on the student's to blame appropriate to be , often non-applicability , in the case of punishment punish right to the specified relatively doubt not giving birth necessary , that's all they are own guilt they feel In the team discussion to do and the team by supported without punishment to give his effect strength more increases .

Punishment method in application physical punishment application , students hit , beat , scare , provoke , physically and spirit torture , humiliation , honor to the ground hit etc is prohibited . Like this methods apply negative to the results take comes , that is , the reader when afraid a lie to speak learns , hypocrite being remains .

Education in the process applied education tools tariya methods importance to strengthen service does With that together education rule-pedagogue education and education process better organize reach in order to which uses initial condition , leadership is the basis . Education rules teacher , educators guidance pointer the rules is considered Education rules East and Central Asia of philosopher-sages thoughts and national pedagogy achieved to achievements is based on
