

THE EFFECTS OF THE DEVELOPMENT OF NATIONAL EDUCATIONAL KOMPETENTSIYALARINI FACTORS TO REALIZE THE SELF ETIVCHI

Rakhimov Babur Baxodirovich

The student of the history of science

Ishtikhan district 54 school of samarkand region

Annotatsiya : read to realize the self in the present article to improve national kompetentsiyalarini factors affecting kompeten tsiyaviy education of the subjects of pedagogical approach-ensures the quality of the psychological, but also, probably, you know, will help to maintain the skills and skills . National to realize the self, mh-compassion, tolerance, patriotism, social teachers is high human qualities such as loyalty is necessary.

Base words: reader, spirituality, culture, self-awareness, stricter, hurfikirlik, spiritual and moral qualities, tarixiylik

The main purpose of management in the education system in uzbekistan is important to the significance, consists of harmoniously developed generation. In reference to the year of the president of uzbekistan drew attention to the issue of the president on 24 January 2020 yoshavlod is: " How important in the development of future society, the younger generation and providing healthy adolescent can go be an adult. This us and produce more correct results, knowledge and modern production, prepared with enthusiasm and resolve, we will rely on our young qo'llashkor" ¹. Humanitarian education and to strengthen the democratic youth the fullness of spiritual self-the spiritual self of the problems of national English high pressing in the quality of the tasks previously surilyapti. Because our national soil fountain strange educate the young generation has got specific ideas without education plays a large role in the creation of. In particular, any nation and the people, and the principles and values of a state based on the life of any social system, but their own interests, goals-muddaosi people, muddaosi dreams people dreams and hope for the consideration of.

In particular, all historical periods in the development of every nation and of the honour of any if these people are the foundation of creativity, historical monuments, works of art, the scientists who contributed to the development of world science - thinkers measured. Therefore, these material and spiritual riches of the nations the uniqueness of the spiritual environment, lifestyle and dreams and hopes of improved. about a people 's national own - self English weather ' a welcome addition to objective yarayon will be discussed . All social events such as the nation, the culture of the outside world cut off in case of also can develop. The mutual influence of national cultures of collaboration and mutual development. This mutual yarayonda

nations appears. In this way from someone who is in the relationship "usun" comes from the fact that this was yarayon speed and self-awareness to strengthen committed to sends.

The younger generation in their national income in the country in reading in reading kompetentsiyalarini knowledge, technical, professional and practical business experience and effective form of activity. Majlis of uzbekistan on January 24, 2020, the reference of the president ²at the future of training the young generation has drew attention to the problem: "uzbekistan islam karimov to become the country we have been developed to support this rapid stimulate the repair of your enterprise and innovation science education and eriishmoqda. To do this, first and foremost, the software suppliers to be out of the area, angles strategiyaviy thoughts, our need for nurturing a new generation of software knowledge and training" that this appeal in both education institutions in the context of self-nurturing, self-nurturing, self-nurturing, self-nurturing, self-production, self-nurturing. is facing the problem of teachers.

Uzbekistan the state of things has conducted research to gaining a direct improvement to the problem of the education system. Society also has expanded the scope of scientific and pedagogical downloads. In Particular, Sh.Shodmonova ³read that are relevant to their team-translator increase the responsibility to fix the thought of the students in volunteering, O. surov the ⁴reader-the age of spiritual culture in the formation of the national idea to the vision of himself and himself was suspended.

Maxmutova G. ⁵masla trained to dwell on it's work in reading: political and ethical qualities required in the formation of more effective ways of the mind, spiritual-moral, and studying the customer about the culture of ethics and the conduct of the circulation of norms ajoyiblarimizning great look.

O. Musurmonova their time in the education of the young generation in the study of the pedagogical aspects of spiritual and ethical education, so were emphasized: education in ethical consciousness, conscience, duty, mas'ulyat, hayo, pride of a man like the help of hosts is based on the internal management of the constriction. The start of ethics, which make up the core humanitarian, democratic, labor, labor, mutual help, friendship, food, mutual xujumkor the patriotism, nature and produces much less energy on the environment they are in .

K. Nazarov in the education of the young generation it's the study of the role of national values and values masla: daily life, which can be a lot of work in the "values" the concept of a necessary thing for people. Human needs and supports serve the purpose of the products of nature and culture will help to kimmat focused. K. Nazarov "naryad shuda values of vayumlarning this can be expensive, but vokelikning any specific forms for men, conditions, prices, events, yarayonlar, circumstances, and the quality of the requirements, procedures and the cost of other things, is something of social importance. "that gives you the definition.
